ABOUT CLASS TO CARE MEDICAL FOUNDATION

Class to Care Medical Foundation is a non-profit organization established to provide support for healthcare centers, promote capacity building for healthcare workers and advocate and create public health awareness for the general public. Our operations cut across Equipment donation, Advocacy, Training and Mentoring.

Our organization is registered with registration number, CAC/ IT/ NO 108616.

In our 20 months of operation, as part of our capacity development programme, we have trained a total of 40 health workers (community health workers, nurses, doctors) in Basic, Life Support Skills, Advanced Cardiovascular Life Support Skills, ECG interpretation. We have also held a mentoring program on emergency response at the emergency rooms of two major medical facilities in Lagos State, as well as donated medical equipment to 3 Primary Health Centres in Lagos State.

Our vision

To be the foremost promoter of access to high quality healthcare for all Nigerians.

Our mission

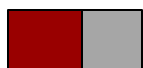

Improving healthcare service delivery through continuous medical education for healthcare practitioners and promote support to influence healthcare practice in public service.

FOCUS AREAS

1. **Advocacy** and **Public Health Awareness.**
2. **Support** through *Equipment donation* and *Health Facility Rating.*
3. **Continuous Medical Education** through *Training, Mentoring.*

Objectives:

1. Creating health awareness among the general public.
2. Ensuring capacity building of Nigerian healthcare providers by fostering continuous medical education.
3. Conducting high quality trainings and drills, using world standard training facilities, modern equipment, renowned and experienced facilitators, and tested pedagogical techniques.
4. Donating needed equipment and consumables to public health facilities.
5. Influencing health policies and health service delivery through programmes targeted at stakeholders.

IMPACTS SINCE INCEPTION

One of the factors identified to poor quality healthcare among Nigerians is knowledge and skill deficit among healthcare providers and these have resulted in many Nigerians dying especially in an emergency situation.

This is what our foundation set to address through our various programs which aim at promoting access to high quality healthcare among Nigerians.

Our focus areas are;

1. SUPPORT THROUGH EQUIPMENT DONATION AND HEALTH FACILITY RATING

Class to care medical foundation donated some items to some Primary Health Centres (PHC) in Lagos state through her equipment donation programs in times past. Some PHCs who have benefited from this includes:

- Our first Equipment donation program was held on the 09th November, 2019. Some items were donated to Ayomi Mafoluku Primary Health Centre (PHC). Items include the following:

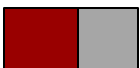

- a) One (1) 20" Standing Fan
- b) One (1) Drug Cart

- We also donated some items to Primary Health Care (PHC) Shogunle on the 27 December, 2019. They include:

- a) Two (2) digital Thermometers
- b) One (1) office chair
- c) One (1) drug Cart
- d) Two (2) waste bin baskets
- e) One (1) Adult weighing scale.

Also, some items were donated to Oshodi Primary Health Centre (PHC) on 1 March, 2020. The items donated are:

- a) One (1) 18" Standing fan
- b) One (1) drug cart

2. CONTINUOUS MEDICAL EDUCATION THROUGH TRAINING AND MENTORING

Our first training program was held on the 18th April, 2018. A total number (8) health workers from three (3) Primary Health centres (PHC) in Amuwo-Odofin Oshodi and Surulere Local Government Areas (LGAS). Five (5) Nurses, Two Doctors and one (1) community health worker were trained in Basic Life (BLS) skills.

The Next training was a 12-Lead ECG course which was held from 28th to 30th May, 2018.

Four (4) health workers (doctors) from the Association of General and Private Medical practitioners of Nigeria (AGPPN) Alimosho and Agege Zone were trained.

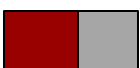

Another BLS training was conducted on the 31st May, 2018. Eleven (11) health workers from PHCs in Ikorodu, Eti-osa and Ikeja LGAS. Seven (7) Nurses, three (3) doctors and one (1) community health workers (doctors) from the Gbagada General Hospital were in attendance.

On the 17th August, 2018, Six Health workers (doctors) from the Gbagada General Hospital were trained in BLS.

Advanced Cardiovascular Life Support (ACLS) training was conducted from 18th to 19th August, 2018 with six (6) health workers (doctors) from Gbagada General Hospital in attendance.

Our first mentoring program, the National Clinical Elective Program (NCEP) started from the 1st to 31st September, 2018. Four (4) Health workers (doctors) were selected after the application and screening process and posted to Gbagada General Hospital and Lagos state Accident and Emergency Centre (LASAEC) to undergo an immersion in a medical emergency team as the first responders in clinical emergency cases.

OSATEA project is an online training program comprises of six (6) clinical skills to enhance patients care by health professionals and they are; Oxygen Administration, Stethoscopy, Airway Management, Triage, Electrocardiogram, and Arterial Blood Gas. The OSATEA project was organized for Nurses on an online forum called Naija Nurse Forum from 6th – 13th September 2023. About 100 nurses were registered for the program

3. ADVOCACY AND PUBLIC HEALTH AWARENESS

The first public health awareness program was held on the 19 May, 2019. There were free Blood Pressure checks and blood glucose level checks and about Fifty (50) persons were in attendance and they were educated on the following:

- a. First aid
- b. Cardiopulmonary Resuscitation (CPR)

In honor of the World hepatitis Day 2020, we organized a Hepatitis Awareness and vaccination program (HASVA) and about Forty (40) persons were successfully tested and vaccinated at the Oshodi/Isolo local government area on July 28, 2020.

Also, to honor the Restart a Heart Day 2020, we successfully organized Cardiopulmonary Resuscitation (CPR) Awareness and sensitization program (CAPRAS) at Purple Maryland, Lagos state, Nigeria on the 13th November, 2020.

About Fifty (50) persons were educated on the following:

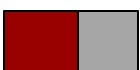

- a. How to respond to an emergency
- b. How to identify a cardiac arrest patient
- c. How to perform quality CPR for cardiac arrest patient
- d. How to act safely in a heart emergency case.
- e. How to operate and use an AED

Another CAPRAS (Cardiopulmonary Resuscitation Awareness and sensitization program) was held at Purple Maryland, Lagos state, Nigeria on the 13th November, 2021

About hundred (100) persons were educated on the following:

- a. How to respond to an emergency
- b. How to identify a cardiac arrest patient
- c. How to perform quality CPR for cardiac arrest patient
- d. How to act safely in a heart emergency case.
- e. How to operate and use an AED

In 2022, Class to Care Medical Foundation collaborated with Crest Meds and Drills to organize CAPRAS (Cardiopulmonary Resuscitation Awareness and sensitization program) at the Mobolaji Johnson Station, Ebute Metta on the 16th October, 2022

The first public health awareness targeted at Schools was tag FACS project (First Aid and Cardiopulmonary resuscitation in Schools) and this was organized and executed at Honeyfield School in November, 2019. The students and staff were educated on first aid care to the injured and CPR to cardiac arrest victims. A total number of 26 students and 2 staff were in attendance

In 2022, Cardio Pulmonary Resuscitation in Schools (CAPRES) project was introduced and organized at Div-Help schools, Oshodi - Lagos on the 30th March, 2022. Over 100 students and their staff were educated on the following

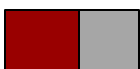

- a. How to identify a cardiac arrest victim
- b. How to activate EMS
- c. How to perform high quality victim
- d. The use of AED in cardiac arrest victim

In the same year 2022, Cardio Pulmonary Resuscitation in Schools (CAPRES) project was also organized at Motivation Schools, Oshodi - Lagos on the 16th November, 2022. The students of over 100 and their staff were educated on the following

- a. How to identify a cardiac arrest victim
- b. How to activate EMS
- c. How to perform high quality victim
- d. The use of AED in cardiac arrest victim

In the year 2023, Cardio Pulmonary Resuscitation in Schools (CAPRES) project was successfully organized at Yinkyem School, Oshodi - Lagos on the 2nd of June, 2023. More than 100 students and members of staff were educated on the following

- a. How to identify a cardiac arrest victim
- b. How to activate EMS
- c. How to perform high quality victim
- d. The use of AED in cardiac arrest victim

Another CAPRES (Cardio Pulmonary Resuscitation in Schools) project was held at Adams College, Oshodi - Lagos on the 15th of June, 2023. More than 100 students and members of staff were educated on the following

- a. How to identify a cardiac arrest victim
- b. How to activate EMS
- c. How to perform high quality victim
- d. The use of AED in cardiac arrest victim

NEED FOR SUPPORT

The logistics and management of these programs and projects has some financial implication, our aim is to impact more Nigerians in all our core areas of project execution. As such, we require support to execute these commendable projects.

We are requesting your participation as a sponsor in any of our upcoming projects aimed at promoting access to quality healthcare.

We need your financial support to continue to promote access to quality healthcare by empowering and equipping Nigerians in all areas of our program, hence this fundraising appeal

See the above Sponsorship Levels Document to find the giving level that is right for you

We would like to thank you in advance for your generosity. Please do not hesitate to contact us on our office line 0901-209-8263 or through our email address; classtocarefoundation@gmail.com or social media handle [facebook.com/classtocare](https://www.facebook.com/classtocare), if you have any questions.

By supporting our projects, it simply means **you are saving the lives of many average Nigerians** through access to quality healthcare.

Thank you
